Construction workloads, costs and pressures

Saskatchewan Real Estate Forum

April, 2015

BTY.COM

Protecting the clients interests by identifying and advising on the risks associated with acquiring an interest in a development that is not under the clients direct control.

2015 WORKLOADS

1-3%

- Increased demand for goods and services
- Other sectors buffering the oil price effect
- Healthy inventory of major projects

1-3%

- An additional \$30B from resources and mining
- Pressure on labour and its mobility
- Weak Canadian dollar
