

How Do I Log In to my Virtual Conference?

The virtual event is accessible on smartphones, tablets, laptops and desktops through a web browser like Chrome or Firefox (avoid Internet Explorer) – Safari for Macs. You can also access the virtual event by downloading the Real Estate Forums mobile app from the App Store (iPhone) or Google Play (Android).

From your browser, log in by clicking the button below and you will be prompted to enter the Email Address you used to register as well as a Password. If you have not logged in before, you will be asked to Create a Password. Please create a new password to login and join the conference.

If you enter your email address and receive a Welcome Back message that prompts you to enter your Password, you have an existing EventMobi account. If you don't remember your Password, there is a Forgot Password button on the screen that you can use to reset your Password.

We also have links on realestateforums.com – click on Forums and Conferences – choose your conference. For events that are being presented for access - you will see access buttons at the top of each of the Forum or Conference dedicated pages.

Why Should I Complete My Profile?

Personalize your profile like you would LinkedIn and join chat forums, 1:1 meetings, and group conversations. The more information you have, the more relevant connections you will make. Click **My Profile** in the menu or from the event lobby and enter your Name, Job Title, Company, Bio*, Website* and Social Media accounts plus upload a photo.

How Do I Watch the Sessions?

Access educational market intelligence through virtual panels, expert interviews and keynote discussions during and after the event.

At the scheduled event time, you can click on **Live – Happening Now** to automatically watch the live stream of the program. You can also access the live video stream by clicking on individual sessions under Program.

If you join late, no worries—you will join the sessions already in progress and the full event will be offered on-demand once it's over.

To note, registration for an individual session is not required but we do recommend that you add a session to Add to Your Schedule for easy reference!

How Does Networking Work?

Spontaneously connect with your peers, look-up a contact, see who's online, start a chat, launch a video call, book meetings and more. See who's attending the event under **Network** as well as by popping into the **Lounge**.

When in the **Network** space, find someone you'd like to meet, send them a message and/or request a meeting. It's that simple! You can also join the conversation in the **Lounge and Chat Rooms** by posting your questions and comments to the chat forum as well as joining the open Zoom conversation.

What's Happening in the Lounge?

Join the **Lounge** for peer-to-peer networking, relaxed conversations, idea sharing and market insights. We will have several discussions and polls going on in the **Lounge** in addition to the sponsor **Chat Rooms** and select speakers will be available to answer your questions. Visit the Lounge to check out the full schedule.

What If Something's Not Working?

Visit the **Help Desk** located in the menu on the left side. Here you can access our **How To, FAQs** and other important information. If at any time you need technical assistance during the virtual event, please click on the **Live Support** button located on the bottom left side menu. A chat box will open and you will be connected to EventMobi technical support for immediate assistance.

Create a Personalized Agenda

Add Key Sessions of Interest to Your Schedule - make the most of your time and create your own program with sessions you specifically want to attend.
