

Virtually Connecting Canadian Investors &
Global Investment Managers

Powered by

GLOBAL
PROPERTY MARKET

CANADIAN
REAL ESTATE FORUMS

The Global Property Market conference is the most important annual real estate conference for Canadians investing internationally.

Each year, executives from across the country come to Toronto to learn about real estate markets and investment opportunities in the US, Europe and Asia/Pacific and to meet investment managers and advisors from those markets. Over the years, GPM has become the perfect lead-in to Canada's largest industry event, The Real Estate Forum in Toronto.

While we are unable to hold GPM as a face-to-face event this year due to health and safety precautions as a result of COVID-19, our team at Canadian Real Estate Forums is committed to providing investors with a window on the global property markets. Global CONNECT is a new virtual platform featuring webinars by investors from around the world.

Our webinars have attracted more than 900 participants from 29 countries.

If you were not able to watch the sessions live, you can [use this link](#) to watch a recording.

The moderator of our global investors' webinar was Brad Olsen, President of Atlantic Partners, Ltd. Many of you know Brad from his appearances at GPM over the past decade and have met him in connection with your global real estate strategies. He has also been a fixture for many years at MIPIM, ExpoReal and the Association of Foreign Investors in Real Estate.

We are excited to be working with Brad on a new initiative: Global CONNECT

Global CONNECT will enable Canadian investors to reach out to global investment managers on a unique, virtual platform which provides maximum connectivity and interaction. Investment managers will be featured on individual, one-hour webinars describing their companies, their strategies and their funds. These webinars will be marketed by Canadian Real Estate Forums at no cost to Canadian investors who have registered to be part of Global CONNECT.

Investors will be able to expand their contacts among global portfolio managers and gain knowledge of international markets as they prepare their investment strategies for 2021 and beyond.

WE ENCOURAGE YOU TAKE ADVANTAGE OF THE STRONG VALUE OF THE
GLOBAL CONNECT BY REGISTERING ON OUR WEBSITE
